

Caveat Emptor Nubilum

Thomas A. Fuhrman
Senior Vice President
Booz Allen Hamilton

April 14, 2010

Three Main Topics...

- 1. There is a strong case for DoD to move to Cloud Computing**
- 2. Security in the Cloud is a double-edged sword**
- 3. What to do...**

A strong case for DoD to move to Cloud Computing

- **Reduced Cost**
- **Reduced energy consumption**
- **Scale**
- **Enabling of the mobile user**
- **Performance**
- **Security?**

Security in the Cloud is a double-edged sword

- **Centralized security**
- **Tighter network management**

-
- **Virtualization**
 - **Multi-tenancy**
 - **Scale**
 - **Operations!**

What to do...

- **Know what you are buying**
- **Pay attention to your own policies**
- **Trust but verify**
- **Spend quality time developing the SLA**
- **Step up as a cyber security leader**

nec scire fas est omnia

(To know all things is not permitted.)

(Horace, 1st Century BC)
