1030 – 1100	ELS Overview	Jayson Durham & Amit Daswani
1100 – 1130	Data Strategy Panel Session	

Think of UCore, and Start Simple

A 2nd Lt and a MSGT went camping in the desert. After they got their tent set up, both men fell sound asleep. Some hours later, MSGT wakes the 2nd Lt and says, 'Sir, look towards the sky, what do you see?'

The 2nd Lt replies, 'I see millions of stars.'

'What does that tell you?' asked the MSGT.

The 2nd Lt ponders for a minute then says:

Astronomically speaking, it tells me there are millions of galaxies and potentially billions of planets.

Astrologically, it tells me that Saturn is in Leo.

Time wise, it appears to be approximately half past three in the morning.

Theologically, the Lord is all-powerful and we are small and insignificant.

Meteorologically, it seems we will have a beautiful day tomorrow.

Unclassified

Think of UCore, and Start Simple

“What's it tell you, MSGT?”

“It means someone stole the tent.”
